PRODUCT INFORMATION

BARIATRIC EASYCLEAN RESTRAINT STRAP WITH MID PANEL AND 4 BUCKLES

The Bariatric EasyClean Restraint Strap with Mid Panel and 4 Buckles is a safety strap designed to securely restrain patients. Made from thermoplastic urethane and featuring ultrasonically welded seams, it is the only high-level disinfectable surgical table strap. With its seamless design, these straps are easy to clean, devoid of puncture holes, stitching, or seams, eradicating potential hiding places for bacteria and substantially reducing the risk of cross-contamination. This innovative construction permits complete and repeated submersion in high-level disinfectants.

Moreover, this Phillips Safety strap is universally compatible with all surgical tables and can be secured circumferentially around the table or through side rails. The EasyClean Restraint Strap with Mid Panel and 4 Buckles is equipped with four lock-tight buckles, an extra-large mid-panel, and two sturdy, extra-long straps for security of your bariatric patients. The straps have a 2-inch width, a 140-inch length, and a mid-panel measuring 11 inches wide by 30 inches long.
