### FACE MASKS

Face masks are a type of protective equipment worn over the mouth and nose to reduce the spread of infectious diseases or to protect the wearer from inhaling harmful particles. Their primary purpose is to prevent the spread of respiratory droplets from the wearer, which can contain viruses or other harmful particles, and to provide a barrier against external contaminants.

Phillips Safety takes pride in offering a collection of face masks to provide security in any workplace setting. Our selection includes two types of masks: one with an ear loop and another with a headband style. These masks are specially designed to filter particles, viruses, and microbes.

**CATEGORY INFORMATION**  
**FACE MASKS**

Our collection of face masks meet KN95 standards, providing an effectiveness rate of 95% against particles and over 95% bacterial filtration efficiency. They are also FDA approved and feature an integrated adjustable nose bridge that ensures proper fit, making them comfortable to wear for extended periods.

Each package of our face masks includes 10 masks, which are intended for single use. However, it's important to note that while wearing a mask greatly reduces the risk of infection, it does not eliminate it completely. The level of protection the mask provides depends on the proper fit of the wearer.

## PRODUCT INFORMATION

### KN95 EAR LOOP MASK

The KN95 Ear Loop Mask are face masks designed to filter particles, viruses, and microbes. These face masks feature an ear loop design for more comfort and an integrated flexible nose bridge that ensures proper fit. The KN95 Ear Loop Masks are FDA/CDC approved and meet KN95 standards, which means that they are effective against 95% of particles, with over 95% of bacterial filtration efficiency. One package comes with 10 face masks intended for single use. Please note that wearing a mask does not eliminate the risk of infection, as it depends on the proper fit of the wearer.

#### SPECIFICATION

**QUANTITY: 10 FACE MASKS PER PACKAGE**

**Color: White**

**SAFETY STANDARDS: MEETS KN95, FDA/CDC  
APPROVED**

**Features: An ear loop design for more comfort and an  
integrated flexible nose bridge that ensures proper fit**

**PRODUCT INFORMATION**  
KN95 HEADBAND FACE MASK

The KN95 Headband Face Mask is a respirator face mask with a headband style. Designed to filter particles, viruses, and microbes, it is made of a multi-layer filtration system of non-woven breathable fibers. The material of the mask includes 46% non-woven polypropylene, 28% melt-blown fabric, and 26% ES hot air cotton, and the headband is latex free. Plus, for a better fit, this face mask features an adjustable aluminum nose piece. The KN95 Headband Face Mask is FDA authorized for use in healthcare settings during the COVID-19 public health emergency and meets KN95 standards, which means that they are effective against 95% of particles. One package comes with 10 face masks intended for single use. Please note that wearing a mask does not eliminate the risk of infection, as it depends on the proper fit of the wearer.
