### CASSETTE HOLDERS

Introducing Phillips Safety's Cassette Holders, the ultimate solution for ergonomic and efficient cassette handling in radiographic environments. Designed to streamline workflow and enhance technician comfort, our cassette holders are engineered with innovative features to elevate your imaging processes.

Cassette holders offer numerous advantages for radiographic environments. Firstly, they greatly enhance workflow efficiency by providing a stable and ergonomic platform for positioning cassettes during imaging procedures. By streamlining cassette handling, technicians can work more efficiently, reducing procedure times and increasing patient throughput. Additionally, cassette holders promote safety by minimizing the risk of accidental drops or mishandling of cassettes, thus protecting both equipment and personnel.

Moreover, these holders facilitate the precise positioning of cassettes, ensuring optimal image quality by minimizing artifacts and distortions. Overall, investing in cassette holders is not just a matter of convenience but a strategic decision to improve productivity, safety, and image consistency in radiographic settings.

### CASSETTE HOLDERS

With a focus on user-friendly operation, our cassette holders feature adjustable height mechanisms, eliminating the need for cumbersome indexed adjustments. Whether you're positioning cassettes for different imaging angles or accommodating various cassette sizes, our holders ensure effortless and ergonomic handling for technicians.

Versatility is paramount, and our cassette holders deliver. Equipped with rotation capabilities, they offer flexibility in cassette positioning to suit diverse imaging needs. From standard cassettes to specialized encasements, our holders easily accommodate a wide range of sizes.

Stability is key, so our cassette holders are built with sturdy bases and secure locking mechanisms. Enjoy peace of mind knowing your equipment remains stable during procedures while benefiting from mobility when necessary.

Upgrade your radiographic setup with Phillips Safety's Cassette Holders and experience streamlined workflow, enhanced technician comfort, and improved imaging capabilities.

CASSETTE HOLDERS

A large, stylized letter 'P' in a dark teal color serves as a background for the page. The 'P' is composed of thick, rounded strokes. The top curve of the 'P' is at the top left, and the vertical stem extends down towards the bottom left. The right side of the 'P' is open, framing the text on the right.

## PRODUCT INFORMATION

EASY SLIDE CASSETTE HOLDER | CAS-MB-38479

The Easy Slide Cassette Holder features an easy height adjustment with our unique counter weight design. To adjust the arm height all you simply have to do is slide the Cassette Assembly to your desired distance with minimal effort. This vast improvement over the typical indexed height adjustments style, results in a safe, ergonomic movement for the technician. The Easy Slide also allows for 360 degree rotation of the Cassette with our dual pivoting joints. The Easy Slide Cassette Holder has a heavy mobile base for stability and includes 4 Lockable Casters. This holder ensures effortless mobility and stability in any setting. It accommodates cassettes ranging from 8"x10" to 17"x17", including DR Panel Protectors and Grid Encasements.

Height adjustment from the floor is 6" to 46.5" (Bottom edge of your cassette)

## SPECIFICATION

**COLOR:** Gunmetal

**HEIGHT ADJUSTMENT:** from the floor 6" to 46.5"  
(bottom edge of your cassette)

**FEATURES:** 4 Lockable Casters, Adjustable Height,  
Easy Slide

- Rotates 360 degrees, and tilts +/- 90 degrees allowing cassettes

- Compatible with DR panels and cassettes from 8"x10" to 17"x17" including DR Panel Protectors and Grid Encasements

TABLE TOP CASSETTE HOLDER | TT-CSTHDR

The Table Top Cassette Holder is designed for lateral imaging. Crafted from top-grade steel, this holder guarantees enduring performance and durability. Plus, it is engineered for stability, featuring a 15" x 15" base that effortlessly slides beneath patients and pads. Featuring a 1.25" channel depth, this Table Top Cassette Holder accommodates a variety of popular imaging CR/DR Cassettes and Grid Cassettes. Adjustments are seamless, facilitated by the smooth-sliding clamps on the 24" steel pole. In addition, the receptor handles snugly fit into the upper clamp, securely cradled on the expansive base. Each clamp is lined with anti-slip soft rubber for gentle handling and protection of the receptor at all times.

**SPECIFICATION**

**COLOR:** Gunmetal

**FEATURES:** Adjustable Height

**ADJUSTMENT HEIGHT RANGE:** 1" to 23.5"

**OVERALL SIZE:** 15"L x 15"W x 27"H

**CHANNEL DEPTH:** 1.25"
