PRODUCT INFORMATION
JACKET ONE-PIECE LEAD APRON PREMIUM LEAD FREE

The Lead Free Jacket One-Piece Premium Lead Apron effectively reduces radiation exposure while providing great comfort. It covers the front and back of the body from the shoulders to the thighs, offering excellent anterior and posterior torso protection. The apron features a Velcro closure on the inside, allowing for adjustability and security. Additionally, it has a patch pocket on the front, shoulder pads, and a supportive back relief belt. This belt wraps around the back and locks in the front with a buckle, transferring weight from the shoulders to the waist to offer back relief.

This apron is 20% lighter than our Economy Lead Free models, enhancing comfort and wearability. It features a non-lead bi-layer construction, and is suitable for both men and women. Available in five sizes (S, M, L, XL, XXL), it provides 0.50mm Pb lead equivalency protection using a non-lead core material. Plus, this lightweight apron is non-hazardous, 100% recyclable, and easy to dispose of.

Furthermore, the core material complies with ASTM F3094-14 testing standards, ensuring reliability and safety. The apron comes in four outer materials: Nylon, Ripstop, Polytron, or PVC EasyClean. It is also available in various colors, all featuring black binding.

RIPSTOP

Ripstop is a woven fabric that utilizes a reinforcing technique to enhance its resistance to tearing and ripping.

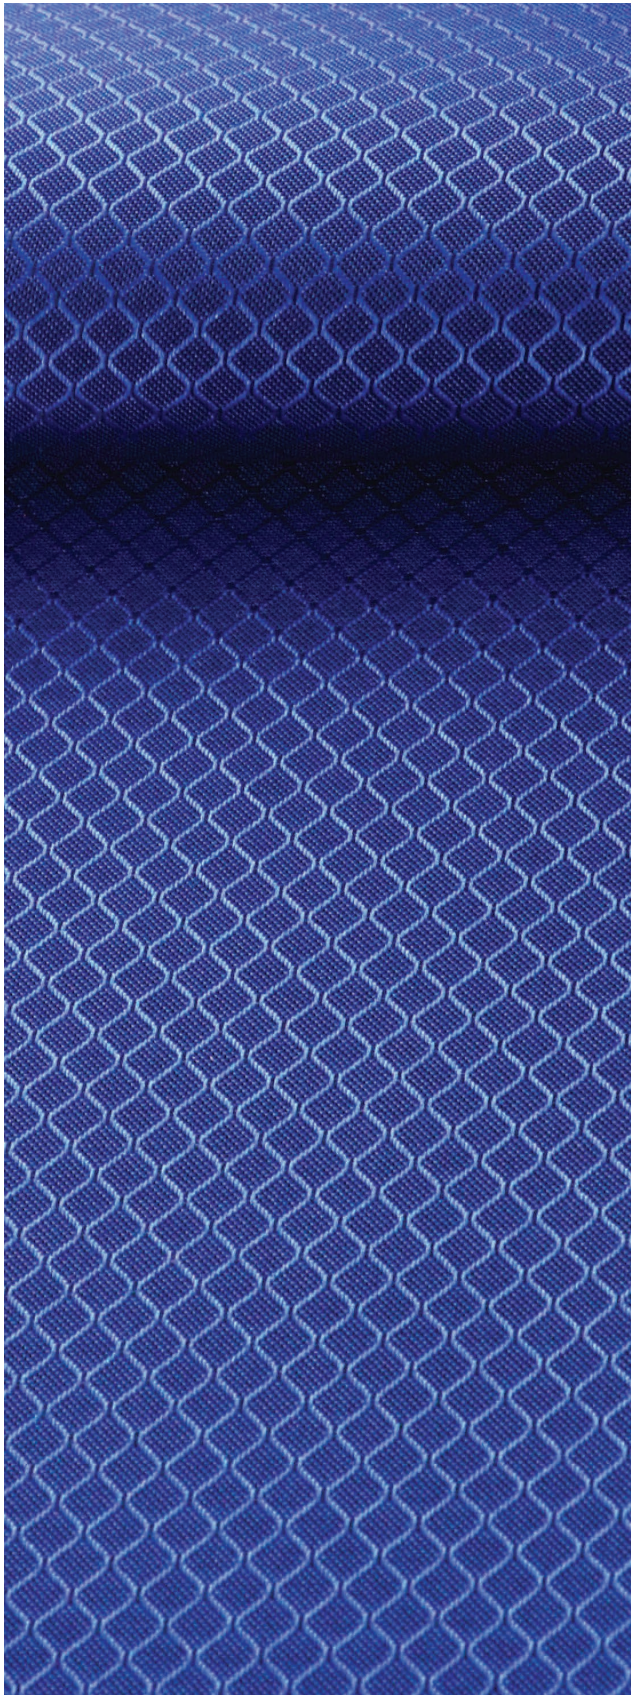

Commonly made from nylon, this lightweight material features interwoven reinforcement threads arranged in a crosshatch pattern, giving it a distinctive diamond-like appearance.
