PRODUCT INFORMATION

JACKET ONE-PIECE LEAD APRON LIGHTWEIGHT LEAD

The Lightweight Lead Jacket One-Piece Lead Apron effectively reduces radiation exposure while providing great comfort. It covers the front and back of the body from the shoulders to the thighs, offering excellent anterior and posterior torso protection. The apron features a Velcro closure on the inside, allowing for adjustability and security. Additionally, it has a patch pocket on the front, shoulder pads, and a supportive back relief belt. This belt wraps around the back and locks in the front with a buckle, transferring weight from the shoulders to the waist to offer back relief.

Suitable for both men and women, the Jacket One-Piece Lead Apron comes in five sizes: S, M, L, XL, and XXL. It is made with a lightweight lead core material and offers 0.50mm Pb lead equivalency protection. The core material meets ASTM F3094-14 testing standards, ensuring reliability and safety. Plus, it is available in four outer materials: Nylon, Ripstop, Polytron, or PVC EasyClean. In addition, it is available in a variety of colors, all with black binding.

RIPSTOP

Ripstop is a woven fabric that utilizes a reinforcing technique to enhance its resistance to tearing and ripping.

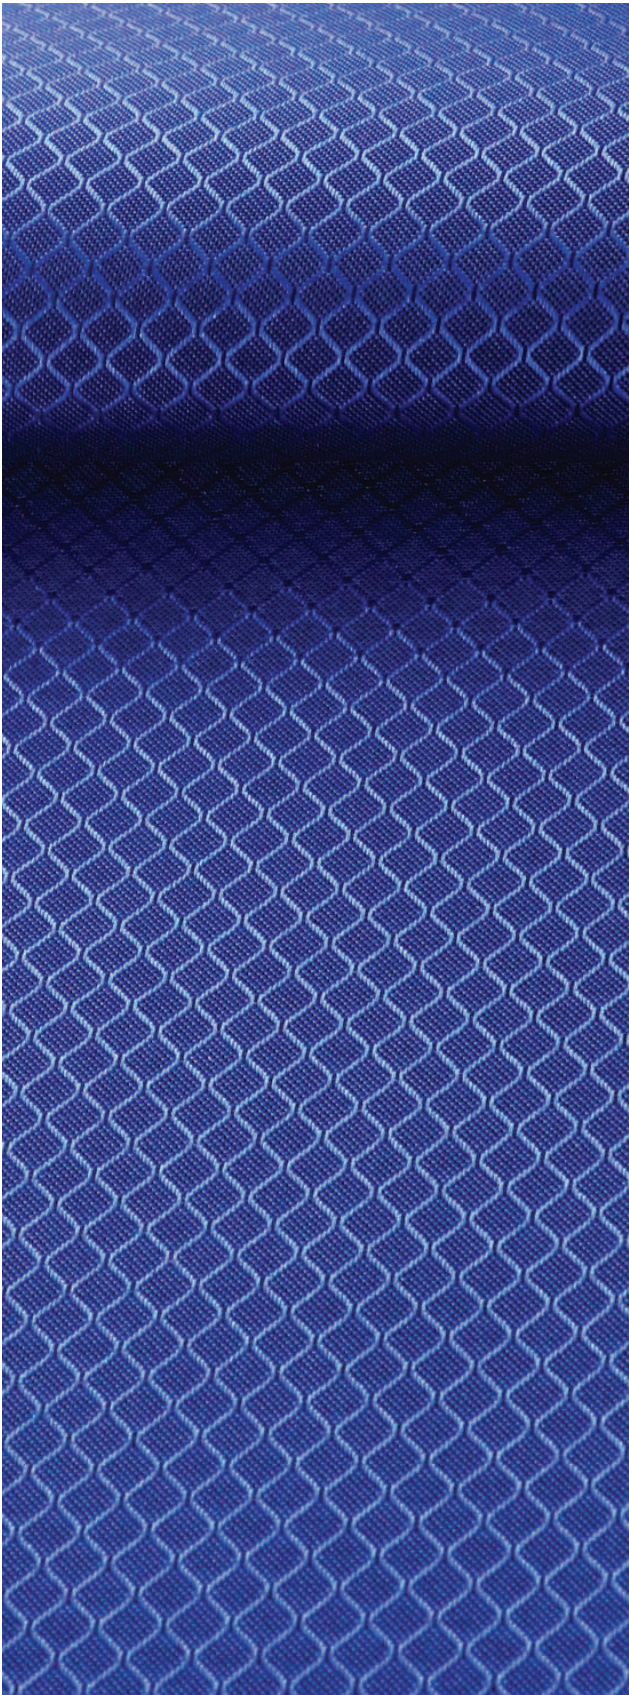

Commonly made from nylon, this lightweight material features interwoven reinforcement threads arranged in a crosshatch pattern, giving it a distinctive diamond-like appearance.
