Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

Phillips Safety proudly presents our comprehensive collection of frame parts, designed to ensure the longevity and comfort of your eyewear. Among these essential components, our Removable Facial Cavity Seals stand out as a vital addition for those who prioritize both protection and comfort. Whether you use your glasses for professional purposes or personal activities, our facial cavity seals are designed to enhance the fit and performance of your eyewear, making them an indispensable accessory for maintaining your vision's clarity and safety.

Specifically tailored for our safety glasses collection, many of our removable facial cavity seals are available in both standard and thick versions to accommodate different needs and preferences. These seals are expertly crafted to create a secure and snug fit around your eyes, effectively blocking out wind, dust, debris, and other environmental irritants. Whether you're working in a dusty environment, riding at high speeds, or simply seeking extra protection, these seals ensure that your

eyewear provides maximum coverage, allowing you to focus on the task at hand without worrying about external elements.

In addition to their protective capabilities, our removable facial cavity seals are designed with user comfort in mind. Easy to attach and remove, these seals can be quickly swapped out or replaced as needed, ensuring your glasses remain in optimal condition. Their ergonomic design ensures that they fit comfortably against your face, reducing pressure and enhancing the overall wearing experience.

By choosing Phillips Safety's facial cavity seals, you're not just maintaining the effectiveness of your eyewear—you're upgrading it to meet the highest standards of protection and comfort. Explore our range today and find the perfect fit for your safety frames, ensuring your eyes are safeguarded in any situation.
